DISCLOSURE: The P.A.C.E. program has been designed specifically for students who need an opportunity to earn a high school proficiency diploma for private sector jobs that require proof of high school proficiency, or, students who desire an opportunity to obtain a high school proficiency diploma for self-improvement and/ or personal satisfaction. Our program is not designed for college admissions, military enlistment, or for government/public sector employment. Please be advised that the P.A.C.E. program is not a college-prep program that prepares students for admissions requirements of a college/university/trade school and is not a high school completion program that prepares students for educational enlistment requirements of the U.S. Military. The P.A.C.E. program and this diploma may not be accepted by all educational institutions or employers as evidence of a high school education or diploma. "The P.A.C.E. program and this diploma are not high school equivalencies and may not be accepted as evidence of a high school education or diploma by all colleges or employers. This diploma is not accepted as evidence of a high school education or diploma by any branch of the United States Military."

Continental Academy is accredited by the National Association for the Legal Support of Alternative Schools (N.A.L.S.A.S.). The National Association for the Legal Support of Alternative Schools is not recognized by the United States Department of Education and/or the Florida Department of Education. Note: The U.S. Department of Education does not have the authority to accredit private or public elementary or secondary schools, and the Department does not recognize accrediting bodies for the accreditation of private or public elementary and secondary schools. However, the U.S. Department of Education does recognize accrediting bodies for the accreditation of institutions of higher (postsecondary) education. If an accrediting body which is recognized by the Department for higher education also accredits elementary and secondary schools, the Department's recognition applies ONLY to the agency's accreditation of postsecondary institutions. The National Association for the Legal Support of Alternative Schools ONLY provides accreditation to private alternative schools at the K-12 level and the U.S. Department of Education does not recognize accrediting bodies for the accreditation of private or public elementary and secondary schools at the K-12 level. The Florida Department of Education does not accredit, regulate, approve, or license private schools. Additionally, the Florida Department of Education does not officially recognize any of the various agencies that accredit private schools. The acceptance of diplomas from private schools will be subject to the requirements of the receiving educational institution or employer. For these reasons, besides ascertaining the accredited status of a school or program, students should take additional measures to determine, prior to enrollment, whether their educational or employment goals will be met through enrollment at Continental Academy. Those measures should include inquiries to prospective educational institutions or employers.
